

Can you imagine?

Not working late to get proposals completed?

Completing quotes 75% faster?

Having standardized cost templates for all products?

Not worrying about the accuracy of your costing information?

Regenerating your price catalogs in 15 minutes?

Reducing business lost due to the time it takes to prepare a proposal?

Increasing margins due to highly accurate quotes?

**Maybe You Can't...
But We Did!**

We know what it takes to write and re-write quotes, so we created eTurboQuote to **save you an enormous amount of time.**

Advantages

- ✓ eTurboQuote is cloud-based, giving you access to your data whenever you have access to the web.
- ✓ You can easily create pricing templates; allowing you to duplicate price models without extra effort to generate them.
- ✓ Cost data and product parameters are held in separate databases, so when your costs change, new price models can be generated instantaneously.
- ✓ **It's fast and robust.** Multiple team members can work on price models, saving effort and time spent wondering where the data went.

The result! All quotes are done in a consistent and accurate manner.
